Chahat Bhatia

Product Designer

Product Designer with **4+ years of experience** turning complex product flows into intuitive, conversion-focused experiences using **AI-assisted workflows and human-centered UX.**

WORK EXPERIENCE

Refyne | Bangalore — Apr 2024 – Present

Product Designer

- Owned and redesigned end-to-end lending journeys, improving onboarding conversion and reducing friction across critical user flows.
- Identified drop-offs in e-NACH mandate experiences and redesigned failure handling and recovery journeys, reducing CX dependency and improving success rates.
- Led homepage revamp initiatives focused on information architecture, discoverability, and user engagement across core actions.
- Simplified complex financial and compliance requirements into intuitive fintech experiences through close collaboration with product, engineering, legal, and business teams
- Contributed to building and scaling reusable design system components to improve consistency, scalability, accessibility, and design efficiency.
- Working on introducing UPI-based repayment and cross-sell flows post license approval to improve adoption and repayment experience. (WIP)

Jio Embibe | Bangalore — May 2022 - March 2024

UI/UX Designer

- Designed and delivered end-to-end B2B and B2C product experiences for classroom management and school operations grounded in user research and usability testing.
- Built scalable workflows across assignments, attendance, communication, and progress tracking improving operational efficiency for educators and institutions.
- Collaborated cross-functionally with product managers, engineers, and stakeholders to ship intuitive and scalable experiences used across multiple schools.
- Conducted usability testing and iterative UX optimization to improve engagement, accessibility, and task completion rates
